Construction Notice: Resurfacing Work on CTH-B

(ELKHORN, WI): Resurfacing work on CTH-B from Castle Terrace Ave., extending east to Linton Road along the south village limit of Fontana, is anticipated to begin the week of April 25, 2022.

Project Improvements

- Replacement of highway cross culverts and driveway culverts
- Installing new curb and gutter at intersection corners
- Partial-depth asphalt pavement milling
- Construction of a new asphalt pavement surface

What to Expect

- During construction, the highway will remain open to traffic, utilizing single-lane closures with flaggers. Delays should be expected.
- The roadway will be reopened to two-way traffic at the end of each day.
- Access will be maintained at all times for emergency services, postal delivery, garbage collection, and school buses.

The road surface may vary during construction until paving operations begin, so please pay attention to signs and be aware of your surroundings as you travel through the work zone. Watch for message signs for more specific information as it becomes available.

We are anticipating the contractor will have the final paving completed by mid-July. The schedule is dependent on favorable weather conditions and construction progress.

Please feel free to email or call the Walworth County Public Works Department with any questions at (262) 741-3114.
